

# Wish you were here!

I'm sending you this postcard to celebrate the release of Postcard, my casual handwriting typeface.

Postcard is an irregular, friendly typeface. It's readable in text sizes, quirky and engaging in larger sizes. It has an extensive character set, kerning pairs, and two sets of letters and numerals (Regular and Alternate).

Postcard Regular and Alternate are available from Monotype Typography in PostScript Type 1 format, either on floppy disk, or from their new Monotype CD 5.0. (Call 1-800-MONOTYP to order.)
